A Free App That Prevents Violence Before It Happens

Thanks to the creativity and vision of these developers, young people now have a new line of defense against violence in their lives.”

DUKE UNIVERSITY,
IN THE NEW YORK TIMES

Now in Hindi! अब हिंदी में!

**HOW IT WORKS**

**CAR ICON: COME GET ME.**
An SMS message will be ready to send that reads:
"Come and get me. I need help getting home safely."
It will send a map using GPS to show your circle exactly where you are.

**PHONE ICON: CALL ME.**
An SMS message will be ready to send that reads:
"Call and pretend you need me. I need an interruption."

**CHAT ICON: I NEED SOME ADVICE.**
An SMS message will be ready to send that reads:
"I'm looking up information about healthy relationships and respect. Just letting you know."
There will be links to loveisrespect.org and whereistyyourline.org. This keeps your circle informed of what's on your mind, but doesn't ask for immediate action.

**EXCLAMATION POINT:**
Pre-programmed national hotlines and a local number the user can customize.

"Be 1 For Change" Tools

One Love MyPlan App

An anonymous, free application for smartphones and other electronic devices, the One Love MyPlan determines if a relationship is unsafe and helps to create the best action plan by weighing an individual's unique characteristics and values. In partnership with LoveisRespect.org, the app provides access to trained advocate support 24/7 through an embedded live chat function.

The One Love MyPlan comes out of over 20 years of National Institute of Health funded research by Dr. Nancy Glass and her team at the Johns Hopkins University School of Nursing.

Everyone deserves safety in their relationships. While every relationship experiences typical "ups and downs," this tool can help differentiate between that and a potentially unsafe situation. The One Love MyPlan app is the latest addition to the One Love Foundation’s “Be 1 for Change” initiative. "Be 1 for Change" serves as a signature program for the One Love Foundation, with an immediate goal of ending Relationship Violence through education and technology.

For iPhone: Available on the App Store

For Android: Google play

One Love Danger Assessment App

The One Love DA app is a part of the One Love Foundation’s “Be 1 for Change” initiative that serves as the base of a long-term campaign to combat Relationship Violence (RV) in the United States. “Be 1 for Change" serves as a signature program for the One Love Foundation, with an immediate goal of educating, creating awareness and providing resources for people 16–24-years-old.

The One Love Foundation partnered with LoveisRespect.org to incorporate a live chat function that provides 24 hour support through your phone. Additionally, users can now re-access the app at any time by entering a pin number, whereas the original version of the app erased on its own after first time use. The app, available for smart phones, is free to download and is anonymous.

The One Love Foundation and Dr. Jacquelyn Campbell from the Johns Hopkins School of Nursing worked together to create the Danger Assessment mobile app, which includes twenty years of research behind the instrument.

The One Love DA can be taken online HERE.

For iPhone: Available on the App Store

For Android: Google play
