

Reaffirmation Compliance Certification Task Force Charge

Date: August 27, 2014

This Task Force is created to prepare for the compliance certification work as we prepare for reaffirmation of our SACSCOC accreditation. The committee is charged with conducting a review of the SACSCOC core requirements and comprehensive standards and federal requirements to help us identify any gaps we might have. We will use this opportunity to address identified gaps prior to writing the compliance report.

The review of the standards should be completed by January of 2015 in order to allow time to address identified issues.
